

## New MD heads up EMISSCO business

**Part of the Klarius group of companies, EMISSCO is a specialist aerosol, liquids, industrial and automotive consumables manufacturer and distribution organisation. As a part of strategic expansion plans for the company, senior industry brand and business development expert Sanjay Khanna has been appointed as the new managing director.**

Sanjay joins the business from over a decade of high-profile management roles within top global automotive brand, Goodyear Dunlop. Before that he managed a range of household brands such as Fairy and Gillette in different territories for FMCG giant P&G. He is enthusiastic about the new position and the growth opportunities he sees for the business.

*"It's rare to get the opportunity to help build a UK manufacturing business starting with an experienced operational team and a brand-new state-of-the-art production facility. EMISSCO offers just that, and I am excited to be a part of it."*

The business is advancing through plans for expansion and the board at Klarius regards now as an opportune time for the appointment. Sanjay agrees, *"Almost all of my business management and marketing experience spanning from motorsport to consumer products, is relevant to this role."*

"There is a substantial amount of production volume in place at EMISSCO delivering physical products for other brands. Having this and everything from machine design and maintenance to a huge nationwide distribution operation onsite, provides ample opportunity for growth."

Klarius CEO Mark Brickhill adds, *"I am delighted to have Sanjay heading-up the EMISSCO team and I can see a huge potential in developing both branded and customer own label products made in the UK for the consumer and automotive, repair and maintenance market."*
