

You can now Relay on Klarius for replacement Citroën Van DPFs

Klarius' latest new-to-range parts release includes new exhausts, catalytic converters (CATs) and diesel particulate filters (DPFs) in range for popular applications such as the Citroen Relay van.

Forty-nine additional parts are now available with the same next morning UK delivery, 2-year standard warranty and Fit First Time guarantee offered with the entire Klarius range.

The full list of new parts is available [here](#).

New products introductions for this month focus mainly on popular passenger vehicles and light commercial vans. New catalytic converters added to range meet the needs of the utilitarian Nissan Note, the quirky Cube and the very popular Qashqai 1.6.

Fresh DPFs in range fit a wide selection of German models, such as the 2003-2007 BMW 5 series diesel, the 2009-2012 Volkswagen Golf 1.6 TDI and the sleek 2010 Passat.

Moving to exhausts, new items are in range for popular BMW, Ford, Honda, Renault and VAG cars. Commercial vehicles also enjoy increased attention; with the Citroen Relay, Peugeot Boxer, Renault Trafic, Vauxhall Vivaro, Fiat Ducato and Doblo seeing new replacement exhausts from Klarius.

All products offered in the Klarius range are specifically designed to deliver the same levels of performance as the OEM component. This is backed by an in-house research, manufacturing and testing capability which also sees Klarius provide an increasing number of official OES products to global manufacturers. Every applicable product is legislatively compliant as standard.

Dynamic stocking procedures and virtual warehousing capability offered by Klarius ensures that whether a popular or niche component is specified, total availability and rapid delivery is standard. A dedicated in-house logistics partner, Autologistiks, ensures reliable delivery across the country.

The full Klarius range is available in Europe, with distribution partners in France, Germany and Scandinavia offering availability for local suppliers.
